

1. Description

- Light brown powder

2. Intended use

Cavalor Calm is used to enrich the normal feed ration to reduce stressful situations due to transport, commotion before and during events (loss of concentration) and other unusual situations (irritating noises, lights, disturbances).

3. Directions of use

We advice a starting dose of 3 measures per day (45g), 2 - 3 days before an expected stressful situation. Mix with the daily feed ration.

This dose can be adjusted according to the result. Can also be used for a longer period with a maximum of 4 weeks. Reduce dosage gradually.

4. Product Features

- Herb mixture: A synergic herb mixture was created for Cavalor Calm in order to sooth the horses's nerves without impairing memory or motor skills.
- Vitamins B1, B6, B12: In certain proportions, these vitamins give a calming effect.
- Tryptophane: This amino acid, can decrease stress when given in the right proportions.
- Magnesium: relaxes the muscles

5. Analysis

Crude Protein	4.2%
Crude Fat	0%
Crude Ash	14.6%
Crude Fibre	0%
Calcium	0.5%
Phosphor	0.01%
Tryptophane	5%
Magnesium	7.1%

6. Storage & Packaging

- Pot 800g or pail of 5kg
- Keep dry and at mediate temperatures
- Use until 1.5 years after production date
